A

Agricultural	3-117
Agricultural Soil.....	3-119, 3-137
Drainage and Irrigation	3-127, 3-139
Farm Operations	3-118, 3-136
Farmland Production	3-129, 3-141
Land Capability Groups	3-120, 3-139
Measures to Minimize Impacts.....	3-144
Methodology	3-135
Specially Designated Agricultural Areas	3-128, 3-140
Air Quality.....	3-171
Climate Change.....	3-189
Criteria Pollutants.....	3-176
Mobile Source Air Toxics.....	3-184
Monitored Pollutant Levels.....	3-175
National and State Ambient Air Quality Standards.....	3-172
Potential Project Impacts and Analyses Conducted	3-176
Regulatory Setting and Compliance with Standards and Air Quality Conformity	3-172
Relevant Air Pollutants for Analysis	3-171
Alternatives	2-1
Build Alternatives.....	2-16
Conclusion – Alternatives Evaluated in Detail	2-96
Congestion Management Process.....	2-14
Development and Evaluation of Preliminary Alternatives	2-23
No-Action Alternative.....	2-13

Tier Two Environmental Resource Database	2-8
Tolling and Financing	2-16

C

Construction Impacts.....	3-753
Air Quality	3-756
Construction Noise and Vibration	3-757
Energy	3-759
Solid Waste	3-758
Transportation.....	3-754
Utility Services	3-758
Water Resources.....	3-754
Cultural Resources	3-145
Archaeological Resources	3-150
Area of Potential Effects.....	3-149
Avoidance and Mitigation.....	3-165
Consulting Parties.....	3-148
Cultural Features in Study Area.....	3-150
Historic Built Resources.....	3-158
Initial Assessment of Effects (Archaeological Resources).....	3-152
Effects (Historic Built Resources)	3-164
Resolving Adverse Effects	3-158
Section 106	3-147

E

Energy	3-219
Environmental Consequences.....	3-221
Existing Conditions	3-220
Methodology	3-219

Evaluation Methodology and Summary of Impacts and Mitigation	3-3
Alternatives Carried Forward Footprint Modifications.....	3-8
Alternatives Carried Forward From the DEIS.....	3-4
Evaluation of Environmental Impacts	3-9
Summary of Potential Environmental Impacts	3-10
Summary of Proposed Mitigation and Minimization Measures	3-17
Tiered Approach.....	3-3

F

Floodplains and Floodways	3-441
Existing Conditions	3-441
Methodology for Assessing Floodplain and Floodway Impacts	3-446
Floodplain and Floodway Impacts	3-447
Floodplain and Floodway Mitigation.....	3-459

G

Groundwater Resources	3-429
Existing Conditions	3-429
Groundwater Quality.....	3-437
Karst Topography.....	3-439
Methodology for Assessing Groundwater Impacts.....	3-453
Mitigation.....	3-439
Seeps	3-438
Well Head Protection Zones and Wells.....	3-436

I

IL-53 Design Options	3-723
Agricultural	3-736
Air Quality	3-738

Cultural Resources.....	3-738
Energy	3-739
Environmental Justice	3-726
Floodplains and Floodways	3-747
Groundwater	3-747
Indirect Impacts	3-752
Mineral Resources	3-750
Natural Resources.....	3-739
Noise.....	3-739
Social and Economic Impacts.....	3-725
Special/Hazardous Waste	3-750
Special Lands.....	3-750
Traffic Impacts to IL-53	3-727
Visual Resources	3-751
Water Resources.....	3-740
Wetlands	3-750
 Identification of the Preferred Alternative.....	5-1
Conclusion	5-24
Context Sensitive Solutions	5-61
IL-53 Interchange Design Options.....	5-14
Implementation.....	5-64
Mainline Alternatives.....	5-5
Stakeholder Input and Agency Coordination	5-22
Sustainability	5-64
 Indirect and Cumulative Impacts	3-617
Assessment of Potential Cumulative Impacts - Manmade	3-687
Assessment of Potential Cumulative Impacts – Other Natural Resources	3-699
Assessment of Potential Cumulative Impacts – Predominant Resources	3-696

Changes in Accessibility	3-650
Conclusion	3-708
Cumulative Impacts and Impact Area Defined	3-670
Current Health and Historical Context of Major Resources in the Cumulative Impacts Area.....	3-675
Direct and Indirect Impacts of the Illiana Corridor that might contribute to the Cumulative Impact on Identified Resources	3-677
Identification of the Predominant Natural Resources in the Study Area.....	3-671
Indirect Impacts on Population and Employment Growth in the Study Area ...	3-652
Indirect Impacts on Predominant Resources and Other Features near Illiana Corridor Interchanges	3-666
Induced or Indirect Land Development near Illiana Corridor Interchanges.....	3-658
Induced Population and Employment Growth at Illiana Corridor Interchanges	3-657
Methodology	3-619
Mitigation Measures.....	3-711
Reasonably Foreseeable Future Actions and their Associated Environmental Impacts	3-681
Study Area Trends and Existing Conditions	3-641

M

Mineral and Geologic Resources.....	3-581
Geologic Hazards.....	3-586, 3-597
Geologic Setting	3-581
Impact Assessment Methodology	3-595
Impact Evaluation.....	3-596
Mineral Resources	3-585, 3-596
Mitigation.....	3-600

N

Natural Resources	3-223
Threatened and Endangered Species.....	3-294
Upland Communities.....	3-227
Wildlife Resources	3-251
Noise.....	3-197
Affected Environment.....	3-197
Construction Noise.....	3-218
Environmental Consequences.....	3-203
Existing Noise Environment	3-201
Field Measurements	3-200
Noise Abatement Criteria.....	3-198
Noise Abatement Measures	3-204
Noise Compatible Land Use Planning Information	3-218

P

Permits and Certifications.....	3-575
Illinois	3-576
Indiana.....	3-577
Purpose and Need for Action	1-1
Project Background.....	1-1
Project Need	1-9
Purpose Statement.....	1-34
Regional Planning Context.....	1-7
Study Area	1-2
Public Comments and Agency Coordination.....	6-1
Cooperating and Participating Agencies.....	6-4
Developing Range of Alternative Corridors.....	6-17
Impact Methodologies	6-17

Lorenzo Road Outreach Activities	6-142
Other Outreach Activities.....	6-138
Public Outreach Meetings	6-40
Purpose and Need	6-15
Scoping	6-13
State and Federal Meetings	6-20

R

Relationship Between Short-Term Uses of Man's Environment and the Maintenance and Enhancement of Long-Term Productivity.....	3-761
--	-------

S

Section 4(f) Evaluation	4-1
Identification of Section 4(f) Resources	4-5
Potential Uses of Section 4(f) Resources	4-38
<i>De Minimis</i> Impact Determination for the Wauponsee Glacial Trail.....	4-75
Proposed Action.....	4-3
Section 4(f) Conclusions	4-78
Section 4(f) Coordination.....	4-78
Section 4(f) Regulations	4-2
Social and Economic	3-35
Economic Impacts.....	3-49
Environmental Justice	3-67
History of Land Use	3-35
Housing Characteristics.....	3-43
Local Planning.....	3-89
Neighborhood and Community Characteristics	3-63
Population Characteristics.....	3-39

Public Facilities/Services	3-82
Relocations and Partial Commercial Impacts.....	3-84
Transportation Facilities	3-99
 Special/Hazardous Waste.....	3-521
Affected Environment.....	3-522
Assessment Methodology	3-543
Existing Conditions	3-522
Findings.....	3-545
Mitigation.....	3-565
Non-Regulatory Agency Listed Sites/Concerns.....	3-529
Regulatory Agency Listings	3-523
 Special Lands.....	3-567
Existing Conditions	3-567
Impacts	3-570
Methodology for Assessing Special Lands Impacts	3-570
Mitigation.....	3-573

V

Visual Resources.....	3-601
Existing Conditions	3-601
Impacts	3-605
Methodology	3-604
Mitigation.....	3-614

W

Water Resources and Aquatic Habitats.....	3-343
Impacts	3-383
Methodology	3-383
Mitigation.....	3-415

Physical and Biological Description of Surface Water Bodies.....	3-349
Surface Water Resources	3-347
Water Quality	3-370
Watersheds	3-344
Wild and Scenic Rivers/Nationwide Rivers Inventory	3-348
Wetlands	3-461
Criteria for Jurisdictional Determinations.....	3-478
Farmed Wetlands.....	3-464
Floristic Quality Assessment.....	3-465
Impacts, Illinois	3-479
Impacts, Indiana.....	3-490
Methodology for Assessing Wetland Impacts.....	3-478
Mitigation.....	3-500
Wetland Characteristics.....	3-466
Wetland Functions.....	3-464
Wetland Plant Communities.....	3-466
Wetland Mitigation Sites	3-465
